

Worksheet: The Economics of Apples

Name: _____

Apple varieties

		Apple varieties				
Quality of apples						
My preference 5 = favourite 1 = least favourite						
Price per kg						
My revised preference 5 = favourite 1 = least favourite						
Class preferences 5 = favourite 1 = least favourite						

Based on class preferences, what general advice would you have for orchardists?

If you repeated this survey in 5 years, would you expect the same results? Why/why not?

How can orchardists continue to have profitable orchards?
