

# Food for the future

Looking to tackle “climate change” from a different angle? Wanting to find out what scientists are doing now to ensure food security in the future?

This full day workshop in Terang aims to provide classroom activities which explore how food availability and farming decisions may be affected by climate change and the actions that are being taken to meet these challenges.

## Highlights will include:

- ◆ Engaging, hands-on, curriculum-linked activities (Victorian Essential Learning Standards) suitable for inquiry-based learning
- ◆ An overview of current predictions and data regarding climate change and their implications for food security and the regional economy
- ◆ Exploring diverse issues including: food footprints, food security, selective breeding and adapting to change
- ◆ Advice and resources for using current issues to support students to become informed consumers
- ◆ Tasting some new foods that may be suitable for our changing climate
- ◆ View and understand Australia’s only dairy effluent methane capture project at Demo Dairy
- ◆ Networking and group discussions with others who are integrating these themes into classroom learning
- ◆ Finding out how LandLearn and WestVic Dairy can help you in the future

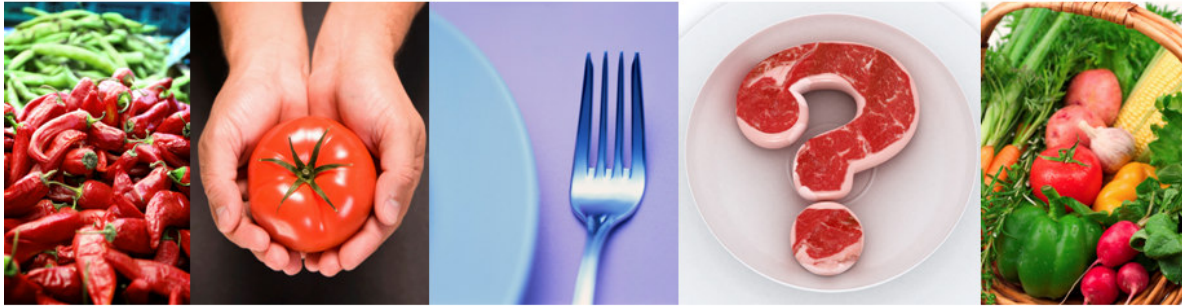

Activities address VELS Standards at Levels 4, 5 & 6 for English, Economics, Geography, Health & PE and Science - but the workshop is open to any interested teachers.

<b>Date</b>	Friday, 5 <sup>th</sup> March 2010
<b>Time</b>	10.00am - 3.30pm
<b>Venue</b>	Demo Dairy: 7161 Princess Hwy Terang, (4km west of Terang)
<b>Cost</b>	<b>Free</b> Lunch and morning tea will be provided.
