Learning in the Garden

LandLearn is a Department of Primary Industries education program that encourages and supports the incorporation of studies about sustainable agriculture and natural resource management into schools' curricula

This Professional Development workshop is aimed at providing curriculum resources and ideas to integrate edible gardens into the curriculum by:

- Providing hands-on curriculum-linked activities aligned to the Victorian Essential Learning Standards
- Discovering how gardening can be integrated into your classroom
- Using Peter Pan to explore seed dispersal and involving students in garden design with Plant Buddies
- Networking with others who have planned and planted their own school veggie garden
- Finding out how LandLearn can help you in the future

****Please note: a resources list is provided to assist you with garden construction which LandLearn does not address in this workshop.**
